

International Hardware Fair Italy 2025: Time to plan a visit

There is only a few months to go before the second edition of International Hardware Fair Italy, powered by EISENWARENMESSE, where industry professionals, manufacturers and distributors will meet in Bergamo on 8th – 9th May 2025.

More than 300 national and international companies and brands have already confirmed their participation as exhibitors – with the aim of presenting their latest innovations, meeting potential partners and customers, and establishing profitable business relationships. These include Allfix Italia Srl, Bossong SpA, GEDORE Werkzeugfabrik GmbH & Co KG, Heller Tools GmbH and KEIL.

Thanks to the wide variety of companies, visitors will have the opportunity to get a preview of market trends, new technologies and cutting edge solutions for their business.

Registration to visit the fair is now open and entry is free of charge after registration on the event portal. The programme of conferences, meetings, and workshops with leading experts in the field, is also available on the official website.

The strategic location of Fiera di Bergamo; its efficient transport network; and the free shuttles available from the Bergamo – Orio al

Serio 'Il Caravaggio' airport and the Bergamo railway station; make it easily accessible by train and plane from all over Europe. Worthy of note are the partnerships with major international industry associations, guaranteeing the quality and importance of the event for the global hardware panorama. +
